PROFESSIONAL EXPERIENCE

CITY OF CORAL GABLES

CORAL GABLES, FL, USA

ERP Analyst II

December 2025-Present

- Spearheaded the implementation process from start to finish for Business Licensing across Finance, Development Services, and Fire Departments from a legacy system to ERP EP&L; creating custom workflows, training material, and automations for the processes.
- Streamlined Business Tax Receipt and Certificate of Use process of around 8,000 businesses; decreased manual labor by employees across the departments and increased employee satisfaction by 40%.
- Developed robust, system-wide reports to support information management and ensure data integrity across cloud infrastructure with SQL queries, CTEs, and Power BI semantic models.
- Integrated Salesforce SaaS platform via secure and scalable APIs with enterprise platforms (EP&L) to automate data flows during multi-system synchronization.
- Served as the principal technical resource for citywide EnerGov operations during implementation and ongoing maintenance, successfully boosting customer satisfaction metrics by 20%.

CITY OF CORAL GABLES

CORAL GABLES, FL, USA

IT Applications Analyst I

October 2024-December 2025

- Partnered with internal leadership to configure, design, maintain, and optimize core citywide enterprise platforms, including Infor CloudSuite ERP and the Tyler Enterprise Permitting & Licensing (EnerGov) system.
- Collaborated with Tyler Technologies and Development Services officials to build and test high-efficiency workflows, processes, and automations, directly improving service delivery for residents and local businesses.
- Served as the central technical liaison and sounding board for Finance, HR, Police, and Fire departments, conducting business process evaluations and translating complex user requirements into actionable functional designs.
- Led efforts to uphold stringent security protocols, safeguarding sensitive information in compliance with IT security standards, best practices, and City policies.

CITY OF CORAL GABLES

CORAL GABLES, FL, USA

PT Information Systems Analyst

May 2023- October 2024

- Acquired in-depth understanding of the City's permitting and licensing processes with the application Energov through active involvement, resulting in more precise documentation and streamlined issue resolution.
- Partnered with team members, Tyler Technologies, and Development Services officials to configure, design, and test new processes, workflows, and intelligent objects (IOs), enhancing operational efficiency and improving the experience for Coral Gables residents and businesses.
- Worked closely with subject matter experts to maintain data integrity and identify process improvement opportunities during the Infor WFM system implementation, including comprehensive testing, reporting, and data flow analysis.
